# Help Yourself to Prosperity

MUCH has been said and written about unemployment. Obviously the man who depends upon the proceeds of his daily labor is below the normal level when he is out of work. Foolish and extravagant buying of unneeded articles is no remedy for this condition.

On the other hand, wholesale hoarding of money only makes a bad situation worse. There is, however, a middle and sane course. Now is the time to spend wisely. Now is the time to keep Old Man Payroll on the job. Bring employment back to normal by purchasing Home Products. Remember that by helping your neighbor you are helping yourself.

There is no other part of our entire country so greatly favored with cheap and abundant power, with so wonderful a climate, and with such adequate transportation facilities by sea, highway, rail and air. If we all work together we'll soon conquer this epidemic of pessimism and Southern California will be the first section in the Union to regain normal prosperity. Spend your money where it will come back to you. Get in line and do your share.

## Southern Fuel Company Formed

Will Bring New Supply of Gas to L. A. Area

The Southern Fuel Company is a newly organized corporation, the stock of which is jointly owned by the Southern California Gas Company and Southern California Edison Company interests.

This company will spend seven million dollars during the coming year in building pipe lines, compressor stations, and installing other equipment to bring gas into the metropolitan district of the city of Los Angeles. On account of the rapid depletion of gas producing areas in the Los Angeles basin, this new supply of gas will be needed to meet the demands of the domestic and industrial consumers of the gas companies in Southern California and the fuel requirements of the Southern California Edison Company's steam plant at Long Beach.
